Table of Content	i
Copyright.....	vii
Dedication	viii
Preface.....	viii
Who Is This Book For	viii
Focus of this Book	ix
Contents	ix
Acknowledgments	xiii
About the Author.....	xiii
Chapter 1. THE BASICS Of J2ME.....	1
Java Editions.....	1
Why J2ME?.....	2
Configurations.....	3
Profiles	3
Java Virtual Machines	4
Big Picture View of the Architecture.....	5
Compatibility between Java Editions	6
Putting all the Pieces Together.....	7
Chapter 2. CONNECTED, LIMITED DEVICE CONFIGURATION (CLDC).....	8
Hardware Requirements	9
Software Requirements.....	9
The Java Virtual Machine Specification.....	9
Handling Security	11
Class File Verification	12
J2SE Inherited Classes	12
CLDC Specific Classes	16
K Virtual Machine	17
Chapter 3. MOBILE INFORMATION DEVICE PROFILE (MIDP)	18
Hardware and Software Requirements	18
MID Profile Architecture	19
The MIDlet Suite.....	20
Accessing JAR/JAD Attributes from a MIDlet.....	24
Chapter 4. DEVELOPMENT ENVIRONMENT	27
Download the Software	27
Install the Software	28
Command Line Development.....	33
Packaging a MIDlet.....	36
Running a MIDlet on an Emulator	39
Download MIDlet onto a Mobile Device.....	41
Project Management Using Java Packages	41
J2ME Wireless Toolkit.....	45
Download	46
Installation	46
Create a New Project	47
Configure the Project Settings	48
Write the Code and Build the Project.....	51
Using Java Packages	53
Locating the JAR and JAD Files	54

Configuring the Emulator	55
Toolkit Summary	56
Chapter 5. BASICS OF MIDLETS AND THE DISPLAY	57
MIDlet.....	57
MIDletStateChangeException	61
Display	66
Displayable.....	69
Chapter 6. EVENT HANDLING	72
The Big Picture	72
Command Objects	73
Item Objects.....	74
Command and CommandListener	75
Item and ItemStateListener	87
Chapter 7. HIGH-LEVEL USER INTERFACE: PART I	91
Screen.....	91
Form.....	93
Item	94
DateField	98
Gauge	104
StringItem	109
TextField.....	115
Choice and ChoiceGroup	123
Image and ImageItem	132
Chapter 8. HIGH-LEVEL USER INTERFACE: PART II	146
List.....	147
TextBox.....	157
Alert and AlertType	172
Ticker	180
Chapter 9. LOW-LEVEL USER INTERFACE	184
Canvas.....	184
Graphics	209
Chapter 10. CREATING A DISPLAYER MANAGER.....	253
Animation MIDlet.....	254
Display Manager API.....	257
Animating a Series of Images	260
Source Code.....	262
Chapter 11. RECORD MANAGEMENT SYSTEM (RMS).....	271
Persistent Storage Through the Record Store	271
Navigating with RecordEnumeration.....	284
Sorting with RecordComparator	286
Searching with RecordFilter	303
Notification of Changes with RecordListener.....	316
Exception Handling	320
Chapter 12. TODO LIST EXAMPLE: PART I.....	322
Using the Todo List.....	322
Interface Design	325
Data Design	326
Application Logic.....	331
Source Code.....	333
Chapter 13. SCHEDULING TASKS	350
Timer	350

TimerTask	353
Example: Timer Template.....	354
Example: Todo List MIDlet Part II—Delay Timer	358
Example: Animation with Timer/TimerTask	361
Chapter 14. GENERIC CONNECTION FRAMEWORK	369
Connection Hierarchy	369
HTTP Connection.....	371
Chapter 15. MIDP FOR THE PALM OS	440
Device Requirements	441
Download	442
Installation	442
MIDlets.....	444
Configuring Preferences	450
Example: keyCodes and gameActions.....	455
Appendix A. Over the Air User Initiated Provisioning Recommended Practice.....	468
General Information	468
Device (Client)	469
MIDlet Suite Upgrade	473
MIDlet Suite Removal.....	473
Server	473
WAP	475
Appendix B. CLDC API.....	477
java.io.....	480
ByteArrayInputStream	480
ByteArrayOutputStream.....	481
DataInput	481
DataInputStream	482
DataOutput.....	483
DataOutputStream	484
EOFException.....	484
InputStream.....	485
InputStreamReader	485
InterruptedIOException	486
IOException.....	486
OutputStream	486
OutputStreamWriter.....	487
PrintStream	487
Reader	488
UnsupportedEncodingException	489
UTFDataFormatException	489
Writer.....	490
java.lang	490
ArithmeticException	491
ArrayIndexOutOfBoundsException	491
ArrayStoreException.....	491
Boolean.....	492
Byte	492
Character.....	493
Class	494
ClassCastException.....	494
ClassNotFoundException	494

Error	495
Exception	495
IllegalAccessException	495
IllegalArgumentException	496
IllegalMonitorStateException	496
IllegalThreadStateException	496
IndexOutOfBoundsException	496
InstantiationException	497
Integer	497
InterruptedException	498
Long	498
Math	499
NegativeArraySizeException	499
NullPointerException	500
NumberFormatException	500
Object	500
OutOfMemoryError	501
Runnable	501
Runtime	501
RuntimeException	502
SecurityException	502
Short	502
String	503
StringBuffer	505
StringIndexOutOfBoundsException	506
System	506
Thread	507
Throwable	508
VirtualMachineError	508
java.util	509
Calendar	509
Date	511
EmptyStackException	511
Enumeration	511
Hashtable	512
NoSuchElementException	512
Random	513
Stack	513
TimeZone	514
Vector	514
javax.microedition.io	515
Connection	516
ConnectionNotFoundException	516
Connector	516
ContentConnection	517
Datagram	517
DatagramConnection	518
InputConnection	518
OutputConnection	519
StreamConnection	519
StreamConnectionNotifier	519

Appendix C. MIDP API	520
Alert: javax.microedition.lcdui.Alert	522
AlertType: javax.microedition.lcdui.AlertType	522
Canvas: javax.microedition.lcdui.Canvas	523
Choice: javax.microedition.lcdui.Choice	524
ChoiceGroup: javax.microedition.lcdui.ChoiceGroup	524
Command: javax.microedition.lcdui.Command	525
CommandListener: javax.microedition.lcdui.CommandListener	526
DateField: javax.microedition.lcdui.DateField	526
Display: javax.microedition.lcdui.Display	527
Displayable: javax.microedition.lcdui.Displayable	527
Font: javax.microedition.lcdui.Font	528
Form: javax.microedition.lcdui.Form	528
Gauge: javax.microedition.lcdui.Gauge	529
Graphics: javax.microedition.lcdui.Graphics	529
HttpConnection: javax.microedition.io.HttpConnection	531
Image: javax.microedition.lcdui.Image	536
ImageItem: javax.microedition.lcdui.ImageItem	536
Item: javax.microedition.lcdui.Item	537
ItemStateListener: javax.microedition.lcdui.ItemStateListener	537
List: javax.microedition.lcdui.List	538
MIDlet: javax.microedition.midlet.MIDlet	539
MIDletStateChangeException:	
javax.microedition.midlet.MIDletStateChangeException	539
RecordComparator: javax.microedition.rms.RecordComparator	539
RecordEnumeration: javax.microedition.rms.RecordEnumeration	540
RecordFilter: javax.microedition.rms.RecordFilter	540
RecordListener: javax.microedition.rms.RecordListener	541
RecordStore: javax.microedition.rms.RecordStore	541
Record Store Exceptions	542
Screen: javax.microedition.lcdui.Screen	543
StringItem: javax.microedition.lcdui.StringItem	543
TextBox: javax.microedition.lcdui.TextBox	543
TextField: javax.microedition.lcdui.TextField	544
Ticker: javax.microedition.lcdui.Ticker	545
Timer: java.util.Timer	546
TimerTask: java.util.TimerTask	546
